

Pure Body Extra Strength

Clean out the chemicals, make room for healthy!

The number one source of health and vitality doesn't come from pills or prescriptions; it comes from within. Every minute of every day, your body heals, repairs, and regenerates you from the inside out. Yet everyday exposure to heavy metals and toxins builds up, and blocks your body's natural abilities.

Breakthrough sound wave technology creates the world's first colloidal zeolite. Touchstone's Pure Body Extra Strength colloidal zeolite helps clean out the chemicals from the body—with an easy-to-use spray—so you can make room for healthy in your life.*

Groundbreaking Technology Delivers In-Depth Detox

A natural mineral, the zeolite clinoptilolite is renowned as nature's detoxifier, yet in its raw form, cannot be absorbed by the body.

Using proprietary sound wave technology, our zeolite particles are sized in the nanometer range—and suspended inside water molecules—to travel throughout the body. These innovations are unique to Pure Body Extra Strength, and create a fast-acting and extra strength detox.*

Just like water, Pure Body Extra Strength is colorless, odorless and tasteless, and is backed by a 30-day "good inside" guarantee. Just spray into the mouth, and the zeolite infused water molecules quickly carry detoxifying zeolite throughout the body.*

Why Detox? Toxins:

- Store in your fat cells, making it hard to lose weight.
- Mess with your memory, clarity and focus.
- Interfere with your immune system.
- Disrupt your endocrine systems, affecting your energy, sleep and quality of life.
- Are unavoidable! They are in the food you eat, water you drink and air you breathe.

Clinoptilolite Zeolite:

- Research shows it selectively binds to toxins including mercury, lead, cadmium, arsenic, radioactive particles and volatile organic compounds.
- Extensively studied for efficacy (pubmed.org).
- Granted GRAS status by the FDA (Generally Recognized as Safe).
- Helps to balance the body's pH, considered essential for good health.
- Acts like a magnet to attract and trap heavy metals and positively-charged toxins in and onto its crystalline structure.
